

GRIF-FORGE 6832G

FEATURES & BENEFITS

- Excellent Release
- Superior Lubrication
- Withstands High Temperature
- Low Die Build Up
- Reduces Sticking & Die Wear

PRODUCT DESCRIPTION

GRIF-FORGE 6832G is an oil based graphite dispersion developed for the forging industry. It offers excellent release and lubricating properties. It can be used to forge a variety of alloys.

TYPICAL CHARACTERISTICS

FORM: Liquid
APPEARANCE: Black
ODOR: Slight
FLASH POINT: >540° F
SPECIFIC GRAVITY: 1.34

APPLICATION:

- Can be applied by spray or brush
- Can be diluted with a less viscous oil if needed.

NOTE: Make sure that the material is uniformly mixed before use.

HEALTH & SAFETY

All reasonable care has been taken to ensure that the information contained in this publication is accurate as the date of printing, however, such information might change due to changes in the formulation blend occurring subsequent to the date of printing. The MSDS must be consulted for appropriate information regarding storage, safe handling and storage.
