- Stable Suspensions
- Excellent Refractory Properties
- Extend Tool Life
- Prevents Ferrous & Non-Ferrous pickup
- Economical

PACKAGING:

Pails
Quarts
221-Drums & Pails

PRODUCT DESCRIPTION:

The Hill and Griffith Company **GLOOK™** products are formulated with special refractories, binders, suspension agents, and preservatives. Some are ready-to-use; thereby, eliminating inconsistencies of the homemade type. Others are easily diluted or dispersed in water to form stable suspensions. Both types are easy to use and provide excellent bonding characteristics.
